I. Call to Order

II. Approval of the Minutes of December 2, 2020

III. Opening Remarks – Shannon Davis, Chair

Rector Jimmy Hazel

IV. Committee Reports

A. Senate Standing Committees

   Executive Committee – Shannon Davis, Chair
   - Special Meeting to consider proposed revisions to the Faculty Handbook:
     Wednesday, March 24, 2021 3:00 – 4:15 p.m. via Zoom
   - Coffee and Connect with Faculty Senate Executive Committee 
     Appendix A
   - Executive Committee scheduled meetings:
     Thursday, January 21, 2021
     Tuesday, February 16, 2021
     Tuesday, March 16, 2021
     Friday, March 26, 2021
     Monday, April 12, 2021
   - Sr. Vice President Carol Kissal

   Academic Policies – Suzanne Slayden, Chair
   Budget and Resources - Tim Leslie, Chair
   Faculty Matters – Solon Simmons, Chair

   Nominations – Melissa Broeckelman-Post and Richard Craig, Co-chairs

   Organization and Operations - Lisa Billingham, Chair
   - FS Charter Proposed Changes 
     Appendix B
   - Admissions Committee charge proposed changes
     Appendix C
   - Mason Core Committee charge proposed changes
     Appendix D
   - Organization and Operations Committee charge proposed changes
     Appendix E

B. Other Committees/Faculty Representatives

Admissions Committee
BOV Academic Policies, Diversity and University Community Committee (APDUC)
BOV Finance and Land Use
BOV Research Committee
Faculty Conduct Working Group*
Faculty Equity and Inclusion Committee
Faculty Handbook Revision Committee
   - Faculty Handbook proposed changes **ACTION ITEM**
     Link to report
Graduate Council
Grievance Committee
V. New Business

VI. Announcements

- Provost Ginsberg
- Update from the Office of Academic Integrity – Lashonda Anthony, Director
  There is a change in reporting referrals. We will now only accept referrals through the web portal. Additionally, there will no longer be a need to complete a separate sanction recommendation form as it is embedded in the new portal. There is an instructional video on how to complete the form on the website: Office of Academic Integrity (gmu.edu).

- Mason Facts Update - Molli Herth, Program Manager
  The Mason FACTs’ Review, Promotion & Tenure (RPT) Implementation Team, in collaboration, with the Administrator Working Group are happy to announce:
  - The Election of New Tenured Faculty template was tested and approved for use to route tenure upon hire cases for the 2021/2022 academic year.
  - The Tenure-Track Renewal, Term Faculty for New Multi-Year Appointment and Term Faculty for Promotion w/ New Multi-Year Appointment templates have been drafted and are awaiting testing for a Spring 2021 launch.
  - Synchronized user trainings for upcoming templates are scheduled to begin April 2021 and asynchronous training materials remain available via the Mason FACTs website for continued post training support and reference.

VII. Remarks for the Good of the General Faculty

VIII. Adjournment
ELECTRONIC MEETING

Topic: Faculty Senate Meeting (Feb 3, 2021)
Time: Feb 3, 2021 03:00 PM Eastern Time (US and Canada)

Primary Electronic Meeting Venue - Zoom:

For security purposes -- all attendees *MUST* login using any valid zoom account to join the meeting.

IMPORTANT: Senators must login using their GMU login/password from https://gmu.zoom.us/ to be recognized.

Join Zoom Meeting

Appendix B

Proposed Revisions to the Charter of the Faculty Senate – February 3, 2021

CHARTER OF THE FACULTY SENATE

Adopted by the General Faculty of George Mason University on April 3, 1974
last amended on September 28, 2000, XXX XX, 2021
and as it may be subsequently amended by the General Faculty.

I. Membership of the Faculty Senate

A. Members

Non-voting ex officio members:
President of the University
Provost and Vice President for Academic Affairs of the University
The Deans of the Colleges and Independent Schools
One Independent Institute Director designated by the Directors of the Independent Institutes
Director
Dean of the University Libraries
Fifty
Chair of the Faculty at any Non-U.S. Mason Campus

Voting members:
Faculty Members Elected from the Collegiate and Independent Academic Units

B. Apportionment of Elected Senators

The number of elected Senators representing each collegiate unit (College, Independent Unit or Unit Pool) will be specified in the bylaws of the Faculty Senate. Until and unless the Faculty Senate bylaws are amended, the number of elected Senators will be 51. Elected Senator seats shall be determined apportioned according to the principle of proportionality, based on the full-time equivalent size of the instructional faculty of each collegiate and independent academic unit. Instructional faculty refers to full time and part time faculty with support from appropriated funds. Instructional Faculty of each Collegiate Unit or Institute Pool on February 1st of each year, with the following restrictions:
1. The threshold size for any collegiate unit to receive its own individual allocation of the allocated Senate seats according to proportionality is set at the total University Instructional FTE divided by the maximum number of elected Senators as stated in the Faculty Senate bylaws. In the instance that this ratio is not an integer it will be rounded up to obtain the threshold size. If all units meet or exceed the threshold size, then Senate seats are apportioned based on the total University Instructional FTE. If any unit does not exceed the threshold size, all Instructional faculty refer to full time and part time faculty with support from appropriated funds. All independent Collegiate Units, Institutes, or Academic Units which do not individually equal or exceed the threshold size will be pooled into a single collegiate unit for the purposes of allocating Senate seats— it will be allocated one Senate seat. The remaining Senate seats will be apportioned based on the total instructional FTE of those units that equal or exceed the threshold size.

2. No collegiate or independent academic unit will have more than 25% of the elected Senate seats. In the event that one collegiate unit exceeds 50% of the total FTE, then the University Instructional FTE, then Senate seats will be allocated to that unit so as not to exceed one half of the total seats. The threshold size will be calculated using the total FTE of the remaining collegiate units divided by the number of remaining unallocated seats.

3. Should the number of allocated seats exceed the number of elected seats by 1 because of rounding in the calculations, then the number of elected Senate seats shall increase by one for that year’s allocation.

By March 1st of each academic year, the Senate Committee on Organization and Operations shall establish the representation from each unit on the basis of the data provided by the Administration. The data should be the latest and most complete available at that time. Elections shall follow by May 1st within each unit as soon as possible, to conclude before the end of the academic year.

The Directors of the Independent Institutes shall designate one of their number annually to serve on the Senate.

C. Qualifications of Elected Senators

Elected Senators shall be members of the constituent Faculties they represent. A faculty member is eligible to serve on the Faculty Senate if the faculty member holds

1. A full-time instructional tenure-track or probationary term appointment in the rank of Instructor or above with at least one year’s full-time service at George Mason University; or
2. A restricted term full-time instructional appointment in the rank of Instructor or above with at least one academic year of continuous full-time service at George Mason University; or

3. A part-time instructional appointment in the rank of Adjunct Instructor or above— with at least one academic year of continuous service, and if the faculty member has completed a completion of at least two (2.0) Full Time Equivalents in appointments at George Mason University.

The minimal service qualifications may be waived for emerging collegiate units so that the full Faculty Senate membership quota may be met. Faculty members studying for a degree at the University are ineligible to serve on the Faculty Senate.

D. Election of Senators

Each collegiate or independent academic unit shall decide upon the method of electing its representatives, with the stipulation that they be elected for staggered terms, the maximum to be three years.

II. Responsibilities of the Faculty Senate

A. As Representative of the General Faculty

1. The Senate shall have the fundamental general responsibility to speak and act for the General Faculty on matters affecting the University as a whole.

2. The Senate, on behalf of the General Faculty, shall have the particular responsibility to formulate proposals on those matters affecting the welfare of the University as a whole. In the best traditions of American universities, these recommendations constitute the primary advice to the administration.

3. Regular and special meetings of the General Faculty may be called by the President, who serves as the presiding officer. All members of the General Faculty have voting rights on matters that pertain to the General Faculty. All members of the University community may attend meetings of the General Faculty and participate in the debate of matters that come before it. General Faculty meetings shall be conducted according to the current edition of “Robert's Rules of Order Newly Revised” except as the rules and procedures prescribed therein have been modified by adoption of bylaws or standing rules. The General Faculty may meet electronically, provided the technology used allows all members to hear each other simultaneously, seek recognition, vote, and exercise other rights.
3. In extraordinary circumstances, the General Faculty may, by the following procedure, reverse specific decisions of the Senate:

a. The President shall call a special meeting of the General Faculty to consider reversal of a specific decision of the Senate within ten working days of receiving a petition to do so signed by at least 10% of the voting members of the faculty-General Faculty, as specified in the Faculty Handbook. To be valid, a petition to reverse a specific decision must be submitted no later than two weeks after the distribution/public posting of minutes reporting the Senate action.

b. No vote on the issue shall occur at the meeting. Rather, the meeting shall determine whether or not a mail ballot of all voting members of the General Faculty should be conducted subsequently vote on the issue. The meeting shall be subject to ordinary regulations governing a quorum at meetings of the General Faculty by mail ballot (which may be electronic).

c. If the meeting approves a mail ballot, it shall be distributed within five working/instructional days of the meeting.

d. The ballots shall be counted and the results shared with the General Faculty within five working/instructional days after their distribution. To pass, the motion to reverse a decision of the Senate must be approved by a majority of those eligible to vote.

4. The General Faculty may amend the Senate Charter by the following procedure:

during either a General Faculty meeting or a special meeting of the General Faculty convened for the purpose of amending the Senate Charter.

a. The President shall call a special meeting of the General Faculty to consider such amendments to the Senate Charter within ten working/instructional days of receiving a petition to do so signed by at least 10% of the voting members of the faculty or after receiving proposals approved by the Senate or the Provost. Notice of the meeting shall be accompanied by copy of the proposed changes. Both should be received at least 5 working days before the called meeting.

b. Notice of the special meeting shall be accompanied by a copy of the proposed changes. Both should be received at least 5 instructional days before the called meeting.
ii. A quorum for the called meeting shall be 10% of the voting faculty. Debate at the meeting shall be on the proposed changes. To pass, the proposed changes must be approved by a majority of the voting faculty who are present and voting.

eb. Amendments to the Senate Charter that have been passed by the General Faculty must be presented by the President to the Board of Visitors for their approval.

c. Amendments to the Senate Charter shall take effect upon approval by the Board of Visitors unless a later effective date is contained therein.

5. The authority of the Senate to make recommendations to the administration on behalf of the General Faculty shall not extend over the internal affairs of any single collegiate or independent academic unit except as they affect the interest of the University as a whole or the interest of other units.

a. If a disagreement arises between the Senate, acting for the General Faculty, and the governing faculty governance bodies of one or more single collegiate units over the question of which body properly exercises authority on a specific issue, the President shall decide by assigning the contested issue to one or another body.

b. If the Senate, acting for the General Faculty, takes an action which a Senator believes violates the legitimate interests of the collegiate unit he represents, that Senator shall have the right to demand a second vote on the issue at the same meeting. The vote shall be taken immediately by secret ballot, except that means shall be used to discriminate among ballots cast by representatives of the various units. If two-thirds of the total number of Senators elected to represent any collegiate unit oppose the action, the President shall be reversed and decide whether or not such a violation has occurred.

B. As Advisor to the President

On matters affecting the entire faculty and transcending collegiate unit boundaries, the Senate shall be the primary faculty representative in consultation with the central administration and the President. The Senate and the administration recognize that consultation in such matters implies an obligation on the part of each to engage in regular communication. After due consideration of the Senate's advice, the President will reach a final decision and communicate it to the Senate. If the decision differs from the Senate recommendation an explanation will be included in this communication.

III. Implementation
A. This Charter shall take effect and replace the previous charter on its approval by the General Faculty in a regular or special meeting following the guidelines in section II. A. 4.

B. Section I

1. This Charter shall be implemented according to the normal procedure described in Section I. B., using appropriate figures as of April 1, 1989.

2. Within ten working days after the Committee on Organization and Operations reports the representations from the several colleges, the colleges shall conduct elections in accordance with Sections I. C. and I. D.

3. When these elections have been completed, the newly elected Senators shall take office.

C. Section II

Section II shall take effect on the approval of this report by the General Faculty.
I. **Membership of the Faculty Senate**

   **A. Members**

   Non-voting ex officio members:
   - President of the University
   - Provost of the University
   - The Deans of the Colleges and Schools
   - Dean of the University Libraries
   - Chair of the Faculty at any Non-U.S. Mason Campus

   Voting members:
   - Faculty Members Elected from the Collegiate and Independent Academic Units

   **B. Apportionment of Elected Senators**

   The number of elected Senators will be specified in the bylaws of the Faculty Senate. Until and unless the Faculty Senate bylaws are amended, the number of elected Senators will be 51. Elected Senator seats shall be apportioned according to the principle of proportionality, based on the full-time equivalent size of the instructional faculty of each collegiate and independent academic unit. Instructional faculty refers to full time and part time faculty with support from appropriated funds.

   1. The threshold size for any unit to be allocated a Senate seat according to proportionality is set at the total University instructional FTE divided by the maximum number of elected Senators as stated in the Faculty Senate bylaws. In the instance that this ratio is not an integer it will be rounded up to obtain the threshold size. If all units meet or exceed the threshold size, then Senate seats are apportioned based on the total University instructional FTE. If any unit does not equal or exceed the threshold size, it will be allocated one Senate seat. The remaining Senate seats will be allocated based on the total instructional FTE of those units that equal or exceed the threshold size.

   2. No collegiate or independent academic unit will hold more than half of the elected Senate seats. In the event that one unit exceeds 50% of the total University instructional FTE, then Senate seats will be allocated to that unit so as not to exceed one half of the total seats. The threshold size will be calculated using the total FTE of the other units divided by the number of remaining unallocated seats.

   3. Should the number of allocated seats exceed the number of elected seats by 1 because of rounding in the calculations, then the number of elected Senate seats shall increase by one for that year’s allocation.
By March 1st of each academic year, the Senate Committee on Organization and Operations shall establish the representation from each unit on the basis of data provided by the Administration. The data should be the latest and most complete available at that time. Elections shall follow within each unit as soon as possible, to conclude before the end of the academic year.

C. Qualifications of Elected Senators

Elected Senators shall be members of the constituent Faculties they represent. A faculty member is eligible to serve on the Faculty Senate if the faculty member holds

1. A full-time instructional tenured, tenure-track, or term appointment with at least one year's full-time service at George Mason University; or

2. A part-time instructional appointment with at least one academic year of continuous service, and completion of at least two Full Time Equivalents in appointments at George Mason University.

D. Election of Senators

Each collegiate or independent academic unit shall decide upon the method of electing its representatives, with the stipulation that they be elected for staggered terms, the maximum to be three years.

II. Responsibilities of the Faculty Senate

A. As Representative of the General Faculty

1. The Senate shall have the fundamental general responsibility to speak and act for the General Faculty on matters affecting the University as a whole.

2. The Senate, on behalf of the General Faculty, shall have the particular responsibility to formulate proposals on those matters affecting the welfare of the University as a whole. In the best traditions of American universities, these recommendations constitute the primary advice to the administration.

3. Regular and special meetings of the General Faculty may be called by the President, who serves as the presiding officer. All members of the General Faculty have voting rights on matters that pertain to the General Faculty. All members of the University community may attend meetings of the General Faculty and participate in the debate of matters that come before it. General Faculty meetings shall be conducted according to the current edition of “Robert's Rules of Order Newly Revised” except as the rules and procedures prescribed therein have been modified by adoption of bylaws or standing rules. The General Faculty may meet electronically, provided the technology used allows all members to hear each other simultaneously, seek recognition, vote, and exercise other rights.

3. In extraordinary circumstances, the General Faculty may, by the following procedure, reverse specific decisions of the Senate:
a. The President shall call a special meeting of the General Faculty to consider reversal of a specific decision of the Senate within ten working days of receiving a petition to do so signed by at least 10% of the voting members of the General Faculty, as specified in the Faculty Handbook. To be valid, a petition to reverse a specific decision must be submitted no later than two weeks after the public posting of minutes reporting the Senate action.

b. No vote on the issue shall occur at the meeting. Rather, the meeting shall determine whether or not the General Faculty should subsequently vote on the issue by mail ballot (which may be electronic).

c. If the meeting approves a mail ballot, it shall be distributed within five instructional days of the meeting.

d. The ballots shall be tallied and the results shared with the General Faculty within five instructional days after their distribution. To pass, the motion to reverse a decision of the Senate must be approved by a majority of those eligible to vote.

4. The General Faculty may amend the Senate Charter during either a General Faculty meeting or a special meeting of the General Faculty convened for the purpose of amending the Senate Charter.

a. The President shall call a special meeting of the General Faculty to consider amendments to the Senate Charter within ten instructional days of receiving a petition to do so signed by at least 10% of the voting members of the faculty or after receiving proposals approved by the Senate or the Provost.

   i. Notice of the special meeting shall be accompanied by a copy of the proposed changes. Both should be received at least 5 instructional days before the called meeting.

   ii. A quorum for the called meeting shall be 10% of the voting faculty. Debate at the meeting shall be on the proposed changes. To pass, the proposed changes must be approved by a majority of the voting faculty who are present and voting.

b. Amendments to the Senate Charter that have been approved by the General Faculty must be presented by the President to the Board of Visitors for their approval.

c. Amendments to the Senate Charter shall take effect upon approval by the Board of Visitors unless a later effective date is contained therein.

5. The authority of the Senate to make recommendations to the administration on behalf of the General Faculty shall not extend over the internal affairs of any single collegiate or independent academic unit except as they affect the interest of the University as a whole or the interest of other units.

a. If a disagreement arises between the Senate, acting for the General Faculty, and the faculty governance bodies of one or more collegiate units over the question of which
body properly exercises authority on a specific issue, the President shall decide by assigning the contested issue to one or another body.

b. If the Senate, acting for the General Faculty, takes an action which a collegiate faculty governance body believes violates the legitimate interests of that collegiate unit, the President shall decide whether or not such a violation has occurred.

B. As Advisor to the President

On matters affecting the entire faculty and transcending collegiate unit boundaries, the Senate shall be the primary faculty representative in consultation with the central administration and the President. The Senate and the administration recognize that consultation in such matters implies an obligation on the part of each to engage in regular communication. After due consideration of the Senate's advice, the President will reach a final decision and communicate it to the Senate. If the decision differs from the Senate recommendation an explanation will be included in this communication.
Appendix C

Proposed revisions to the Admissions Committee Charge

Current:
Admissions Committee Charge: Follow the admissions process in order that the faculty might better understand it; make recommendations regarding admissions standards to the Director of Admissions; report admissions recommendations and statistics to the Faculty Senate on an annual basis.

Revised:

Admissions Committee Charge:
Be in dialog with the admissions office about current admissions statistics and practices and provide reports to Faculty Senate. Explore aspects of admissions standards that may impact student recruitment, enrollment, success, and retention. Communicate to faculty via the Faculty Senate about activities they can engage in to help the Admissions Office. Be a resource to the Admissions Office for answering questions from multiple perspectives. Bring recommendations to the Faculty Senate regarding issues impacting the admissions process.

Committee Membership: The committee membership comprises seven members.
Admissions Office-appointed member.
Senate appointed member from Budget and Resources committee.
5-elected members with three-year terms.

Meetings:
The Committee will meet monthly.
Appendix D
Proposed Revisions to the Mason Core Committee Charge

Current:
Mason Core Committee(Charge as revised and approved by the Faculty Senate –April 1, 2009, composition of membership amended September 7, 2011. Revisions including new name: Mason Core Committee approved by the Faculty Senate Dec. 4, 2013)

Composition:
The membership of the Committee comprises 14 voting members:
A. Eight elected from the Faculty Senate for staggered three year terms ensuring that most academic units are represented, one at least should be a senator;
B. Four faculty appointed by the Provost;
C. The Associate Provost for Undergraduate Education; and
D. A representative from the Center for Teaching and Faculty Excellence (ex-officio);
E. A representative from the Office of Institutional Assessment (ex-officio); and
F. One student elected by the Student Senate.

Charge:
A. The Committee will work in cooperation with the Associate Provost for Undergraduate Education on all matters concerning the Mason Core (formerly general education).

B. For all foundation, core, and –synthesis and/or capstone experience MasonCore requirements, the Committee will approve courses to fulfill these requirements. The Committee will develop procedures for the measurement of "satisfactory skills in oral and written presentations" for the synthesis and/or capstone experience requirement, and work with the Office of the Provost to develop procedures for the demonstration of these skills.

C. The Committee will approve and monitor, through periodic review, the proficiency examinations related to the Mason Core requirements, the competency tests, and any other alternatives proposed to fulfill the requirements

D. The Committee will maintain a file of all proficiency examinations and will approve policies related to their administration.

E. The Committee will confer with the Faculty Senate Committee on Academic Policies when changes to Mason Core requirements impact the entire university and/or would be a change to the university catalog.

F. The Committee will provide an annual report to the Faculty Senate. The report shall include: a) The number of students taking and passing proficiency examinations; and b) Changes in the criteria for the Mason Core; More frequent reports to the Faculty Senate might take place as adjustments to the Mason Core program may warrant.
Mason Core Committee

Charge

A. The Committee will work in cooperation with the Associate Provost for Undergraduate Education on all matters concerning the Mason Core (formerly general education).
B. For all foundation, core, and synthesis and/or capstone experience Mason Core requirements, the Committee will approve courses to fulfill these requirements.
C. The Committee will develop procedures for assessing, reviewing, and recertifying courses that carry a Mason Core attribute.
D. Utilizing Mason Core assessment data, the committee will review and revise, as necessary, the overall structure and outcomes of the Mason Core.
E. Review and approve procedures used to substitute or waive Mason Core requirements.
F. The Committee will confer with the Faculty Senate Committee on Academic Policies when changes to Mason Core requirements impact the entire university and/or would be a substantive change to the university catalog.
G. The Committee will provide an annual report to the Faculty Senate. The report shall include a) The courses approved for inclusion in or removed from the Mason Core, and b) Changes in the criteria for the Mason Core. More frequent reports to the Faculty Senate might take place as adjustments to the Mason Core program may warrant.

Composition: The membership of the Committee comprises 14 voting members:

A. Eight faculty elected by the Faculty Senate for staggered three year terms ensuring that most academic units are represented, one at least should be a senator;
B. Four faculty appointed by the Provost;
C. The Associate Provost for Undergraduate Education; and
D. A representative from the Stearns Center (ex-officio);
E. A representative from the Office of Institutional Effectiveness and Planning (ex-officio); and
F. One student elected by the Student Senate.

Meetings:

Meetings will be held monthly during the academic year.
Appendix E

Proposed revisions to the Organization and Operations Committee charge

Current Charge

Organizations and Operations Committee Charge:

This Committee shall be responsible for expediting Senate business and furthering the service of the Senate to the University. Its functions shall include but not be limited to:

A. Recommending the establishment, terms, and charges of new committees or other modifications of committee structure;

B. Making recommendations concerning any operating rules of the Senate that may be necessary;

C. Annually reviewing the bylaws so that it can recommend appropriate changes as needed; receiving proposed amendments to the bylaws and, after consideration, making recommendations to the Faculty Senate concerning such proposed amendments.

D. Establishing in accordance with the provisions of the Charter the number of Senators to which each participating unit of the University is entitled.

All business to come before the Senate should be first submitted to this committee which shall refer items requiring study and action to the appropriate standing committee or appropriate collegial faculty. This Committee shall report its referrals to the next regular meeting of the Senate. This does not prohibit the introduction of items of new business from the floor.

REVISED CHARGE

Organizations and Operations Committee Charge:

This Committee shall be responsible for expediting Senate business and furthering the service of the Senate to the University. Its functions shall include but not be limited to:

A. Recommending the establishment, terms, and charges of new committees or other modifications of committee structure;

B. Making recommendations concerning any operating rules of the Senate that may be necessary;

C. Annually reviewing the bylaws so that it can recommend appropriate changes as needed; receiving proposed amendments to the bylaws and, after consideration, making recommendations to the Faculty Senate concerning such proposed amendments.

D. Establishing in accordance with the provisions of the Charter the number of Senators to which each participating College of the University is entitled.

E. All business to come before the Senate should be first submitted to this committee which shall refer items requiring study and action to the appropriate standing committee or appropriate collegial faculty.

F. Committee shall report its referrals to the next regular meeting of the Senate. This does not prohibit the introduction of items of new business from the floor.
Committee Membership:
Committee membership shall consist of 5 members elected by the Senate. The chair of this committee will serve on the Faculty Senate Committee.

Meetings:
Meeting frequency will be dependent upon business before the Senate.
Appendix F

Reports from University Committees/Faculty Representatives to Committees

Admissions Committee (Submitted by Tim Curby, Chair – January 22, 2021)
Admission Committee Update
The Admissions Committee has met to update the charge of the committee. Changes have been submitted to the Organization and Operations committee for consideration.

University Admissions Update
First time freshman applications are down currently year-to-date. We have extended our Regular Decision deadline from January 15th to February 1st, and as a result, we expect to see a lift in our application numbers as we approach the extended deadline and beyond. We are doing all that we can to both leverage as many applications as we can as well as yield admitted students, moving them through the enrollment funnel to deposit and subsequently enroll. Our decline in freshman applications aligns with what is being seen nationally at other large public universities, and we attribute much of this to the COVID-19 global pandemic and resulting economic crisis. The good news is that our freshman deposits are up significantly over last year at this time. We believe this is a result of distributing financial aid notifications earlier this cycle than in previous years. There is still a long way to go until we know where we stand with our freshman numbers as the National Candidates’ Reply Date, which is the date by which students need to confirm their enrollment, is May 1, 2021. It’s important to note that due to the COVID-19 global pandemic, this reply date could shift later into the summer. Know that we will continue to take new business throughout the summer to garner as many new students as possible for the Fall 2021 semester.

Graduate numbers are holding strong right now. There tends to be growth in the graduate student space during an economic crisis as many students wish to enhance their skillset or re-tool in order to maintain competitive in a challenging economic climate.

BOV Academic Policies, Diversity and University Community Committee (Submitted by Christy Pichichero and Keith Renshaw, Faculty Representatives – January 20, 2021)

- Provost Ginsberg gave an update on campus affairs.
  - Mason had a successful semester, in the context of the pandemic – goal to keep campus healthy and keep everyone safe. Showed examples of campus testing (positivity rate way less than 1%), socially distanced classrooms, labs, performing arts studios, Fenwick Library offering more services and online resources than ever before.
  - For Fall 2020, 75% of undergraduate class sections were online (25% face to face or hybrid), with 85% of total enrollment. For Spring 2021, 71% of undergraduate class sections are planned to be online, with projected 79% of total enrollment. For Fall 2020, 39% of graduate class sections were online, with 71% of total enrollment. For Spring 2021, 37% of undergraduate class sections are planned to be online, with projected 49% of total enrollment.
  - The small projected increase in hybrid/FTF sections for Spring 2021 was a result of working with faculty to find ways to offer more on-campus experiences. The actual level of enrollment is still to be determined, and will of course depend on conditions related to the pandemic.
Fall enrollment higher than ever before, around 39,000—an achievement at a time when we are seeing modest to severe decline in enrollment across the country. Spring enrollment nationally looks a bit lower – Mason is also behind where we were last spring at this time in undergraduate registration (graduate is actually a bit higher). Mason anticipates growth as students work with families to decide how they will approach spring 2021.

Mason has also had to pivot in terms of student support services (academic advising, mental health, wellness, remedial, tutoring, writing and research, activities to support development as well as learning, etc.) – these changes have provided many “lessons learned” about things that can work in ways we have not tried before.

In response to student requests and in consultation with Faculty Senate, Mason has moved to extend optional S/NC grading rubric for all undergraduate classes for Spring 2020 and Fall 2020. In Spring 2020, only about 15% students opted into the alternative grading structure.

After Thanksgiving, Mason has pivoted all on-campus instructional activity to be online – this decision was made last summer, which allowed for ample time to plan. Given current circumstances, this looks to have been a wise decision. Campus residence halls are also lower occupancy – students had to appeal to come back and take a COVID test before/upon return. Down from approx. 3000 students pre-Thanksgiving to 1200 students now. Many are international students and others for whom campus is primary residence.

Lessons learned: to prepare for virtual environment faculty need support such as Stearns center workshops, use new & different technologies to deliver classes online rather than just doing in-person format in ; want to improve things to offer fuller range of services and greatest amount of access.

For Spring semester, Mason made decision (like many other universities in the country) to eliminate spring break. This reduces possibility of travel and increased infections upon return. We are starting spring semester 1 week late, which now avoids inauguration, provides 1 more week to prepare for classes, and gives 1 more week to monitor health situation. Mason will work with public health experts and officials to make decision about any potential change (e.g., begin spring in fully virtual format) by mid-January. We will increase testing from 1,000 individuals/week to 10,000 individuals/week. Classes end and commencement will occur at regularly scheduled times.

Within Engineering, Sanjeev Setia has been named as Interim Divisional Dean for Computing, and Ariela Sofer has been named as Interim Divisional Dean for Engineering. A national search for both positions will be launched next year.

Spring 2021—bring back the Vision Series showcasing faculty activities.

Rose Pascarell won Pillar of the Profession Award, NASPA Foundation October 2020

Thinking forward as we navigate this time that can be characterized as one of VUCA (Volatility, uncertainty, complexity, ambiguity--coined by Harvard Business School scholars); Our 2.0 = Vision, understanding, courage, adaptability

- Rose Pascarell, VP of University Life
  - Pandemic has compounded existing challenges for students
  - Mason was able to quickly pivot to teletherapy – 2042 individual appointments, 505 walk-ins since July 1.
  - Created ULIFELINE, daily virtual workshops and support for students quarantining/isolating.
  - Many well-being initiatives (Racial Healing, Mason Chooses Kindness, Mason Solidarity Project, Thriving Together, Well-Being for the People, Well-Being University CWB Resilience Badge); Greek life and esports happening online, Go Truck mobile activities.
- One of biggest correlates of student well-being is sense of connection and belonging – working to find ways to continue that.
- Requests to Emergency Fund has skyrocketed – have given out more than $13M to assist students.
- Student Activism – still quite high, mostly online (petitions, social media, etc.) – focused on racial justice, Black Lives Matter, undocumented students, lower tuition, etc.
- Mason Student Services Center (came from Student Experience Redesign) has helped a lot – closed over 18K cases in Fall (virtually and face to face)
- Mason Care Network (came from Student Experience Redesign) has also been highly successful, met with almost all incoming first-year students.
- Some unexpected shifts – SACC is seeing more interpersonal violence than sexual/dating violence, possibly because students are at home.
- Takeaway messages: Generally students doing okay, but concerns are rising; Existing challenges (particularly around mental health) have been magnified by crisis; Need to pay close attention to populations of students having more difficulty succeeding in online learning mode.
- Staff have tremendously pitched in trying to meet demands.

- Shelby Adams, Student Body President
  - Student life has changed drastically.
  - Registered student organizations holding meetings, pursuing community service.
  - Low number of cases at Mason shows our discipline; you don’t know what you have until its gone, to get back we have to follow safety protocols.
  - Students are continuing to persevere even through pandemic, staying connected virtually – part of reason cases are low is the seriousness of student body – but need help as this wears on.
  - Average student is going alright; there are student who are really struggling—financially, access to technology, lost loved one, mental health--COVID & racial tensions --

- Dean Zofia Burr presented on Honors College, which strives to be inclusive and representative of Mason’s student body.
  - Since established in 2009, they have asked the question: How can we work together to leverage Mason’s disciplinary & cultural diversity?
  - Pedagogy of inclusion - Students do not have similar levels of college preparation.
  - Holistic application process; HC looks for most motivated students from all backgrounds, pedagogical approach: learning through inquiry, ask real questions, reasoning about evidence, different perspectives.
  - 100% begin research in their first semester.
  - Honoring our community program: foster anti-racist practices and mutual understanding in the Honors College; groups of 5-6 students of diverse backgrounds; monthly meetings with faculty facilitator.
  - How does inquiry lead to action?—High-impact opportunities; 100% take a civic engagement class, research built into the curriculum, internship, community service, registered student, organizations.
  - Work hard to connect with student body and let them know they can be part of Honors; partnership with the Early Identification Program: College Application Coaches (all apply to Honors College), of 20 university scholars 6 are EIP.
  - Honors College Multicultural Alliance 2015.
o Continue to grow transfer and second-year entry programs.

o Have made progress in having Honors College students mirror demographics of Mason – not there yet, but getting closer and overall impressive level of diversity across the board.

• Action Items related to faculty actions were unanimously approved.
January 20, 2021

Meg Caniano
Faculty Senate Clerk
George Mason University

Here’s my summary of the key outcomes from the December 3, 2020, Board of Visitor’s Finance and Land Use Committee meeting.

The Committee approved the following:

- Debt restructuring. The Committee approved the resolution authorizing Mason to participate in the restructuring of its indebtedness for capital projects funded by debt through the Authority’s Public Higher Education Financing Program. By participating in the debt restructuring program, Mason could defer its principal payments of its debt obtained through the Virginia College Building Authority in September FY22 ($22 million) and FY23 ($20 million) to the end of each bond term. (Mason would still need to make its semi-annual interest payments on its debt.)

- Schematic design for phase I of the telecom network infrastructure project – a $9.8 million capital project to upgrade and improve the network information systems on the Fairfax campus. The Funding for this project is fully supported by proceeds from Virginia College Building Authority bonds.

- Schematic design and major scope change for the Arlington Original Building Demolition project - originally a $7.5 million capital project. The project is funding by Mason fundraising. The scope changes comprise the elimination of the requirement to realign the stormwater conveyance pipes that bisect the site. It is now envisioned that the potential developer of the site will carry out this task. This scope change will reduce the estimated cost of the demolition project by $3 million.

The Board also received updates on the succession planning for Mason’s key personnel and on Mason’s retirement plan investment policy review.

David R. Gallay, D.Sc.
Associate Professor of Finance
School of Business
After approving the minutes, the Committee heard from Aurali Dade, the Interim VP for Research. She described a “significant increase” in research expenditures during 2020, passing $200 million and on the way to meeting the 2024 goal of $225 million. These included significant new research expenditures by GMU’s three interdisciplinary university-wide institutes, which surpassed $31,000 for Biohealth Innovation, $53,000 for Sustainable Earth, and $91,000 for Digital InnovAtion. The new research expenditures were partly from growing the research development team, which helps identify funding opportunities and connect partners. This team supports, in different ways, faculty, small teams, multidisciplinary teams, and centers/initiatives. Digital InnovAtion reported developments in grant collaborations, diversity/inclusion, and community engagements. This included a new project on cloud computing. Biohealth Innovation hosted roundtables to collaborate on external funding, especially on Virginia ecosystem and COVID-19 studies. Sustainable Earth reported selecting three fellows who will build research collaborations across the university.

The Committee next heard from Paula Sorrell, the Associate VP for Innovation. She is the point person for community development and entrepreneurship. This includes technology transfer, working with commercial partners, and wraparound services for business development. Faculty and students have access to businesses in Northern Virginia, and the University is supporting local businesses through its innovation districts like the one near the Arlington campus. This work also includes a diversity/inclusion component, as GMU is working to ensure that all Northern Virginia residents benefit from GMU business partnerships.

Finally, the Committee heard an update about another aspect of its COVID-19 research, continued from the last meeting. Today, Dr. Amira Roess, a professor of global health and epidemiology, shared her team’s work on COVID-19 and other infectious diseases. In particular, she studies zoonotic diseases—that is, diseases that spread via the environment or animals and pass to humans. How humans respond to these viruses is influenced in part by food consumption and pollutants in the environment. She described the “one health” paradigm—that the health of humans, animals, and the environment are linked, and extend to hard sciences, engineering, earth science, and social science. Her team has funding for MERS (Middle East Respiratory Syndrome), COVID-19, foodborne pathogens, and gut/nasal microbiome, all with the goal of reducing the risk of infectious disease outbreaks.

As to COVID-19, Dr. Roess is building on her National Science Foundation-funded work on the transmission of MERS in the hospital setting. The team is developing a new model to predict transmission in this setting. We know that MERS can spread through animal (camel) contact with humans, but rodents are likely to play a role in harboring coronaviruses like MERS and COVID-19. Her model also seeks to involve climate science, because climate change is causing vegetation changes that contribute to the spread of viruses between wildlife/livestock and humans. Dr. Roess’s team currently is working on three aspects of COVID-19: turning science into health care policy; surveys of antibodies over time; and monitoring the social determinants of health.

As to the Mason COVID Health Check, Dr. Roess explained that GMU was the only university that started screening in March 2020, although all Virginia public universities followed in May 2020. Her funded program focuses on getting front-line workers back to work through same-day testing kits that test for both antibodies and active virus. This research is leading to a more comprehensive antibody survey study, which mapped out functional immunity. We don’t know how long immunity lasts with COVID-19, but other coronaviruses show a wide variation. Surveys can test immunity duration, allow return to work, and identify donors for future research. The same-day testing kits had pretty good accuracy in the field.
The tests took ten minutes with a blood drop. In Phase 2 of the research, the team will expand to other occupations beyond nurses.

One more important aspect of this COVID-19 research is mother-to-child transmission. Dr. Roess’s team is investigating whether COVID-19 immunity can be transferred through breastmilk or in gestation. Pollutants can interfere with immune response and can exacerbate disparities in incidence and severity of infectious diseases on the basis of class, race, or ethnicity. The study, in collaboration with the children’s hospital in DC, would also look at breastfeeding generally among minority populations, collecting information about mother’s health and children’s immunity over the first five years of life. This information will help develop a model of mother-to-child immunity that accounts for variations in social determinants of health.

**Faculty Conduct Working Group** *(Submitted by Shannon Davis, Suzanne Slayden and Girum Urgessa – January 25, 2021)*

The Working Group has completed all tasks as charged in July 2019. The final report and documents are available to the University community and will be presented by Girum Urgessa and Lester Arnold during the February 3, 2021 Faculty Senate meeting.

**HR Procedures for Investigations into Alleged Workplace Policy Violations**

**Considerations during Sanctions Process**

**CDE Revised Process**

**Educational Materials in Progress: Promoting Civility in the Workplace**

**Faculty Equity and Inclusion Committee** *(Submitted by Ricardo Vivancos-Perez, co-chair – January 26, 2021)*

The Faculty Senate Faculty Equity and Inclusion Committee met on January 15th, 2021. This was our fourth meeting of the year. This AY we agreed to meet monthly, on the third Friday of each month at 10AM via Zoom. We did not meet in December. The following is a brief report on our January meeting. The minutes are attached.

The committee welcomed diversity officers and liaisons from various Mason academic units. This was the second meeting of the year in which they were invited. Seventeen of them attended the meeting (full list is attached). Our agenda items included four general questions:

- How did you decide to serve in an equity-focused role in your college?
- What equity goals, plans and/or actions, however preliminary, are in the works in your unit?
- In what ways can we envision together collaborating across efforts at the college level, the FEIC Committee and/or the ARIE Task Force?
- What support do you need from the University in order to be more effective in your equity/diversity efforts? (this was a new question for this meeting)

Participants discussed how to include and account for diversity in job ads, job interviews and hiring initiatives at Mason. This conversation allowed us to share our thoughts on the most recent
diversity efforts and current resources on campus. We also discussed how some units ask for a diversity statement from candidates, and shared thoughts on what to include in a diversity statement in our syllabi.

A question was raised regarding the role this committee can continue to have in the future. In our first two meetings as a committee, we agreed to have two goals this year:

- to bring together diversity officers and liaisons from all around campus and provide them with a safe space in which to share initiatives and thoughts
- to serve as a bridge between them and the Faculty Senate, asking them to inform us about pressing issues on which the Faculty Senate may take action.

Our next meeting is scheduled for February 19 at 10am. We are inviting diversity officers and liaisons to attend again to continue sharing our thoughts and efforts.

Thank you so much for reading and for your support, and let us know if you have questions.

FEIC Meeting minutes
1/15/2021 at 10am via Zoom
The total number of participants: 17

All FEIC Members were present: Xiaomei Cai, Betsy DeMulder, Kelly Knight, Sherrice Mojgani, and Ricardo Vivancos-Perez

The committee welcomed diversity officers and liaisons from various Mason academic units. Our agenda items included four general questions:

- How you decided to serve in an equity-focused role in your college.
- What equity goals, plans and/or actions, however preliminary, are in the works.
- In what ways we can envision together collaborating across efforts at the college level, the FEIC Committee and the ARIE Task Force.
- What support do you need from the University in order to be more effective in your equity/diversity efforts? (this was a new question for this meeting)

The group started off by sharing experiences and challenges so far. Robert Yi (VPA) shared that the College of Visual and Performing Arts does not have the diversity in faculty that reflect its student body. Moreover, the curriculum is not complete with an obvious lack of representation of African American arts and genre. His school is looking to hire someone to fill this gap. The participants engaged in further discussion on legal issues involving specifying a particular race/ethnicity in the job ad. It is not allowed in Virginia. However, we could find ways to write the job announcement in a way that specific needs are conveyed.

The participants also exchanged ideas on best practices and challenges. Christy Pichichero (CHSS) and Millie Rivera (Office of the Provost) also shared their thoughts on the diversity efforts and resources on campus. Xiaomei Cai (FEIC) shared her experience as the Chair of a recent search. She said CHSS implemented the new set of procedures in hiring faculty which is geared toward a more inclusive process. She said the best experience was to look up information in relation to diversity and got an overall picture of her field (Communication). It was an eye-opening experience. It not only helped her with a better understanding of the pipeline in the discipline, but it has been beneficial in curriculum development in the future.

Cathy Tompkins (CHSS) and others also shared their experience with diversity in her unit. They specifically asked for a diversity statement from each candidate. They also shared the diversity statement they used in the syllabus. The participants discussed the necessity of integrating a diversity statement in each course syllabus. During the discussion, relevant Mason websites were shared in the chatbox for all participants to consult:
A question was raised regarding our future role as the FEIC committee in light of all the efforts being discussed. Betsy DeMulder said it has been a challenge for our committee to take any action because we do not have much power. However, the committee will strive to be a conduit to all the diverse voices on campus. More importantly, the faculty senate will play a key role in future diversity initiatives and our committee is committed to pushing for more ideas. In our first two meetings as a committee, we agreed to have two goals this year:

- to bring together diversity officers and liaisons from all around campus and provide them with a safe space in which to share initiatives and thoughts
- to serve as a bridge between them and the Faculty Senate, asking them to inform us about pressing issues on which the Faculty Senate may take action

The next meeting is scheduled for 2/19 at 10am. Everyone who participated today was invited to attend again.

The meeting adjourned at 11:02am.

Respectfully submitted by Xiaomei and revised by Ricardo.

November meeting (11/13/2020), college representatives shared informally:

- How you decided to serve in an equity-focused role in your college.
- What equity goals, plans and/or actions, however preliminary, are in the works.
- In what ways we can envision together collaborating across efforts at the college level, the FEIC Committee and the ARIE Task Force.

For 1/15/21: Recording, college affiliation, Focus on Faculty equity and inclusion. Above questions plus: What support do you need from the University in order to be more effective in your equity/diversity efforts?

**Faculty Handbook Revision Committee (Submitted by Suzanne Slayden, Chair – Jan. 26, 2020)**

Faculty Handbook Revision Committee – **ACTION ITEM**

Committee members: Solon Simmons, Suzanne Slayden, Girum Urgessa

Faculty Senate Meeting Feb. 3, 2021

The proposed revisions on the following pages are primarily to Chapter 1 of the Faculty Handbook. The main purpose of the revisions in Chapter 1 is to delete language for Academic Institutes, which no longer exist, and substitute language for academic schools, which are subdivisions of colleges. There are several such subdivisions at the University, but the Faculty Handbook has not been updated to include them. Also, there is new language that allows the faculty who are hired through Mason Korea LLC to be members of the General Faculty and so stand for election as well as to participate in elections by the General Faculty. Faculty who are not assigned to Colleges/Schools, but rather report to the Provost’s office, are designated as an “independent academic unit”, and are entitled to representation in the Faculty Senate by pending amendment to the Faculty Senate Charter.

Additionally, the revisions to the Preface are to bring up to date the Handbook revision procedure that has operated for many years. The change to the grievance policy includes reference to the new HR procedures for allegations of violation of workplace policy.

The document appears as tracked-changes to the Faculty Handbook. Deletions appear in strikethrough red font and additions appear in underlined green font.
Proposed revisions to the Faculty Handbook  Feb. 3, 2021

Preface to the Handbook

The George Mason University Faculty Handbook defines and describes the conditions of full-time instructional, research, and clinical faculty employment; the structures and processes through which the faculty participates in institutional decision-making and governance; and the academic policies of the University as established by its Board of Visitors. As an institution of higher education of the Commonwealth of Virginia, George Mason University is governed by the Code of Virginia. Nothing in this Handbook shall be interpreted as creating any right or benefit not duly authorized by law, or which is contrary to any law, policy, rule or regulation of the Commonwealth of Virginia.

The provisions of the Faculty Handbook, as amended from time to time, are incorporated by reference in all full-time instructional, research, and clinical faculty employment contracts. These provisions are binding on the University and on individual faculty members. The Faculty Handbook governs the employment relationship of individual faculty members, and sets forth the rights, privileges, and responsibilities of faculty members and of the University. Faculty and academic administrators are expected to read the Faculty Handbook and to be familiar with its contents.

Except as noted below, revisions to the Handbook may be proposed by any of the parties who have participated in its adoption: the Board of Visitors; the Faculty Senate, acting on behalf of the General Faculty; and the central administration.

Proposals to revise the Handbook originating from the Faculty Senate or University administrators will be considered by the Faculty Handbook Revision Committee (a University Standing Committee composed of three faculty members elected by the Faculty Senate) a joint committee of the faculty and which meets jointly with representatives from Human Resources and Payroll and the Provost’s office. The proposed revisions that are approved by that body will be presented to the Faculty Senate for approval, the central administration consisting of three faculty elected by the Faculty Senate, at least one of whom must be a Faculty Senator, and two administrators appointed by the Provost. The chair of the Faculty Senate appoints one of the elected faculty members as the committee chair. Arrangements must assure an expeditious meeting in cases of urgency. It is not necessary to convene a committee for the following cases:

Revisions proposed and approved by the Faculty Senate, and approved by the Provost.

Revisions proposed by the central administration, and submitted to and approved by the Faculty Senate.

[Rationale: This proposed revision corresponds to the way revisions have been prepared and presented to the BOV for the last several years.]

All revisions require the formal approval of the Board of Visitors. Each revision shall be incorporated, as of the effective date fixed by the Board, in all existing and future faculty employment contracts; however, no revision shall operate retroactively to change materially the substantive rights of any faculty member or the conditions of award of tenure for faculty members already granted tenure, or who have filed a written request with his or her Dean to be evaluated for the award of tenure. For example,
the conditions of employment governed by the Handbook may be changed prospectively and criteria for
tenure may be changed for faculty who have not been awarded tenure, but may not be changed for
faculty already tenured. Where no effective date is fixed for a revision, it shall become effective on July
1st following its approval by the BOV.

When a policy or procedure described in this Handbook is subject to alternative interpretations, then the
Provost and the Faculty Senate Executive Committee will be the designated body to resolve the
disagreement.

As of the date of the adoption of this edition of the Handbook, all prior policies with respect to matters
covered therein are superseded. With the exception of the bylaws governing the University’s Board of
Visitors, the provisions of this Handbook supersede all inconsistent bylaws, policies and procedures in
effect at the time of its adoption by the Board of Visitors (including, if applicable, custom and usage) of
any officer, person, body, or unit of the University, including but not limited to the President or other
officer of the University and any college, school, academic department, academic school, or other
faculty organization.

[Rationale: The small revisions above are consistent with other revisions that define and
differentiate departments and schools as subdivisions of larger collegiate units in Chapter.]

[No further changes to this section.]

CHAPTER I. UNIVERSITY ORGANIZATION

1.1-1.2 No changes

1.3 Faculty Organization

The faculty conducts its work and participates in institutional governance at the University level, the
college/school level, and the level of the local academic unit (defined in Section 1.3.6). The faculty is
organized accordingly, to provide for the exercise of its responsibilities at all three levels, as described in
Sections 1.3.1 through 1.3.6 below. Faculty who are assigned to the Provost’s office, and do not have a
primary affiliation in a college/school (Section 1.3.6), participate in University level governance as
members of the General Faculty (Section 1.3.1) and are considered to belong to an independent
academic unit.

[Rationale: There are many faculty, such as those who teach in INTO, who do not have primary
affiliation with a college/school. In order to insure that they are recognized to the extent possible
as being covered by the Faculty Handbook and deserve to be represented in various roles within
the University, this language is added. The Charter of the Faculty Senate uses the term collegiate
“Independent Unit” which may be represented by a Faculty Senator. Pending amendments to the
Charter will include “independent academic unit” in addition to “collegiate unit” as having
representation in the Faculty Senate.]
In accordance with the best traditions of American universities, the faculty plays a primary role in two types of determinations: the University’s academic offerings and faculty personnel actions. The faculty also plays a vital role in academic organization and institutional change.

1.3.1 The General Faculty

The General Faculty consists of all faculty who have full-time instructional, research, or clinical appointments at any George Mason University campus. The General Faculty participates in governance at the university level.

[Rationale: This language now includes the faculty hired through Mason Korea LLC and who have their primary affiliation at that campus. By being members of the General Faculty, they are able to stand for election to committee membership and to vote as General Faculty in elections.]

Meetings of the General Faculty are scheduled by the President of the University, who serves as presiding officer. If at least 10% of the voting membership petitions for a called meeting of the General Faculty, the President is obliged to schedule it within thirty days, or within ten days if the purpose of the call is to consider modification of the authority the General Faculty has granted the Faculty Senate; or reversal of specific decisions of the Senate; or amending the Senate charter. All members of the General Faculty have voting rights on matters that pertain to the General Faculty. All members of the University community may attend meetings of the General Faculty and participate in the debate of matters that come before it. The General Faculty may meet electronically, provided the technology used allows all members to hear each other simultaneously, seek recognition, vote, and exercise other rights.

Without relinquishing the generality of its powers, The General Faculty delegates by Charter to the Faculty Senate the responsibility for shared academic governance at the university level. Only those faculty who have instructional appointments – tenured, tenure-track, term, or adjunct – may be elected to the Faculty Senate.

[The remainder of this document (except for the last page) are proposed revisions to make the Faculty Handbook language regarding collegiate units and their subdivisions correspond to actual practice.]

1.3.3 Colleges and Schools

The colleges and schools of the University are communities of teaching, learning, research and scholarship, and service established by the faculty and administration and approved by the Board of Visitors. They house faculties and programs representing shared educational interests, and may or may not be subdivided into departments. Colleges and schools may also be subdivided into schools, academic departments. Colleges may be subdivided into one or more academic schools.

[Rationale: Schools that are subdivisions of colleges are properly named here as “academic schools” to differentiate them from schools that are the functional equivalent of a college.]

As an organizational unit, the college/school meets four functional criteria: (i) it has a tenured and tenure-track faculty directly and specifically appointed to it or to its departments, academic subdivisions by the Board of Visitors; (ii) its faculty establishes degree requirements; authorizes the conferral of degrees; proposes, reviews and approves courses and programs; actively participates in decisions
concerning the creation, reorganization and dissolution of units within the college/school; and plays a
key role in faculty personnel actions such as appointments, promotion, and granting tenure; (iii) it has an
instructional budget that includes FTE funds for the payment of its faculty's salaries as well as funds for
goods and services in support of its academic programs and other activities; and (iv) its chief
administrative officer is a Dean who reports directly to the Provost.

The faculties of colleges/schools, together with their Deans, determine the processes and procedures of
governance they will employ, consistent with the provisions of the Faculty Handbook. All
colleges/schools, and if so sub-divided, each of their departments/academic subdivisions, must act in
accordance with the best traditions of the academic profession and within the following guidelines,
which prescribe that they

a. operate in an open and democratic manner;
b. define their own voting membership;
c. adopt bylaws or standing rules that are published and made available to all members and that
   undergo periodic review and that include procedures and define eligibility for faculty
   participation in the activities specified in this Handbook;
d. meet often enough to ensure good communication and the timely conduct of business;
e. hold meetings that follow an agenda distributed in advance;
f. record the proceedings of the meetings in minutes that are distributed to and approved by the
   faculty.

1.3.4 Academic Institutes—Schools

[Note: Academic Institutes no longer exist. The new language is for academic schools that parallels
that of academic departments in the following Section 1.3.5. Although academic schools have
existed for a number of years, they have not been acknowledged in the Faculty Handbook.]

Colleges may be subdivided administratively into one or more academic schools. Academic schools may
be further subdivided into academic departments. The lowest unit subdivision within the college is the
local academic unit (LAU). Schools that are not subdivided are administered by a director. Schools that
are subdivided into departments are administered by a divisional dean.

Academic school faculties determine their own voting membership. Together with their administrators,
they determine the processes and procedures of governance they will employ, but all schools must
follow the guidelines applicable to colleges/schools set forth in Section 1.3.3.

An academic institute is an organizational unit of the University that fosters interdisciplinary activities
that transcend the disciplines based in any single college/school. In addition to research and scholarship
and service activities, institutes offer interdisciplinary academic programs that do not duplicate those of
other academic units. Academic institutes are also analogous to schools or colleges in that they have a
nucleus of full-time faculty appointed directly and specifically to primary affiliation in them.

In addition, academic institutes may have (i) faculty who are assigned to work in them (full- or part-
time) but who are affiliated primarily with other local academic units; and (ii) part-time faculty whose
work in the University is solely in the institute. Of sufficient size to ensure a sense of community and
responsible faculty governance, the faculty of an institute establishes degree requirements, authorizes
the conferral of degrees, proposes, reviews, and approves courses and programs, and plays a primary role in faculty personnel actions.

Administratively, the director of an institute is regarded as the equivalent of a Dean, and is therefore expected to possess appropriate academic credentials or their equivalent. Institute directors report directly to the Provost.

An institute has an instructional budget that includes FTE funds for the payment of its faculty’s salaries as well as funds for goods and services in support of its academic programs and other activities.

The faculties of academic institutes define their own voting membership. Together with their directors, they determine the processes and procedures of governance they will employ, but all institutes must follow the guidelines applicable to schools and colleges set forth in Section 1.2.2.

For a description of non-academic “Research Institutes,” see Section 1.2.11.

1.3.5 Academic Departments

In such-colleges/schools or academic schools as that may be are subdivided administratively into academic departments, to reflect disciplinary differences and intellectual traditions, academic department is the local unit of faculty organization. Each academic department is administered by a chair. Departments are established to carry out programs of instruction, research and scholarship, and public service in particular fields of knowledge. Accordingly, they are organized on the basis of disciplines or fields of study.

Departmental Academic department faculties determine their own voting membership. Together with their chairs, they determine the processes and procedures of governance they will employ, but all departments must follow the guidelines applicable to colleges/schools set forth in Section 1.3.3.

1.3.6 Definition of Local Academic Units (LAU) and Primary Affiliation

The term "local academic unit" (LAU) refers to an academic department, an academic school without subdivision, or to a college/school without departmental subdivision. In this Handbook the chief administrative officers of local academic units are generically called "local unit administrators" (LUA).

Although a faculty member’s tenure resides in the University as a whole (see Section 2.1.1), in recognition of disciplinary qualifications and for purposes of governance, tenure-track and tenured faculty are appointed directly and specifically to one or more local academic units. Term faculty are also appointed directly and specifically to one or more local academic units. The status established by such an appointment to a local academic unit is called “primary affiliation.” Primary affiliation in one local academic unit does not preclude the possibility of additional part-time or full-time assignments to other local academic units. An appointment to primary affiliation requires the concurrence of the faculty of the local academic unit to which the appointment is to be made and may not be transferred from one local academic unit to another except with the concurrence of the faculty of the unit to which a transfer is proposed.

The local level of governance is the most important in the University for the faculty’s direct exercise of professional and peer judgment. Faculties of local academic units actively participate in decision-
making about academic matters, matters of faculty status, and organizational and institutional change. They have primary responsibility for such academic matters as unit reorganization, the design of programs, development and alteration of the curriculum, standards for admission to programs, and requirements in the major. They play a primary role in such matters of faculty status as the recruitment and initial appointment of new faculty; the reappointment, renewal, promotion, and tenure, and post-tenure review of members; and in the case of departments, the selection of the department chair, local unit administrator.

1.3.7 Colleges and Schools without Departments Subdivision

Colleges and schools without department subdivision provide simultaneously for faculty governance at the collegiate level (as described in Section 1.3.3) and at the local level. In carrying out their function as local academic units, such colleges/schools will operate analogously to academic departments and academic schools (as described in Sections 1.3.4 and 1.3.5).

1.3.8 The Graduate Council

The Graduate Council, established by the General Faculty, oversees the conduct of graduate education. It establishes the general norms within which local academic units offer graduate degree programs; reviews and acts upon new graduate degree proposals; authorizes the conferral of graduate degrees; participates in the periodic evaluation of graduate programs and the periodic review of academic policy and admissions policies and procedures; and performs other functions as requested by the office of the Provost.

The Graduate Council establishes the specific means of conducting its own business. Like colleges/schools and departments, all local units, however, it must act within the guidelines set forth in Section 1.3.3.

1.3.9 Multidisciplinary or Interdisciplinary Programs

Most academic programs are offered by local academic units and are therefore administered and governed by the faculties of such units.

Some multidisciplinary or interdisciplinary programs are offered by faculties drawn from more than a single local academic unit. These faculty members do not hold primary affiliation in those programs but rather, in one or more local academic units (see Section 1.3.6). For purposes of personnel decisions regarding appointment, promotion and tenure, these faculty members are evaluated primarily by their peers in the local units of which they are a part, but with the requirement that recommendations from the multidisciplinary or interdisciplinary program faculty with which they are associated will be given due consideration.

Academic programs which are not internal to a single local academic unit are administered by a program director. This director is regarded as the equivalent of a department chair/school director and is therefore expected to possess equivalent academic credentials. Such program directors normally report to a Dean. If the program transcends the boundaries of a single college/school, normally the program director reports to the Provost.
Program faculty define their own voting membership. Together with their directors, they determine the procedures of governance they will employ, but all program faculties must act within the guidelines set forth in Section 1.3.3.

1.3.10 Centers

A center is a unit of the University intended to advance the University’s mission of research and/or public service. Normally housed within a department or college/school or one of its subdivisions, a center does not develop or administer academic degree programs, nor does it possess instructional faculty appointed to primary affiliation with it. Centers may require the presence of research, clinical, and/or professional faculty whose affiliation with the center is subject to the availability of research funds. Faculty appointed to a center under externally funded grants or contracts may not receive tenure-track or tenured appointments through the center. A center is chartered for a specific period of time by a Dean or the Provost on the recommendation of appropriate faculty and Dean(s). Renewal of a center’s charter, when called for, is subject to favorable review of a center’s performance and accomplishments. A center is administered by a director who serves at will and who is appointed by the local unit administrator of the unit within which the center is housed. Whenever possible, centers are expected to derive most of their operating budgets from a source or sources other than state appropriations.

2.11.2 Grievances

2.11.2.1 Policies Concerning Grievances

This section does not apply to the resolution of (1) research and scholarship misconduct allegations, which are governed by University Policy 4007—Misconduct in Research and Scholarship; (2) allegations of discrimination, which are investigated governed by procedures published by the Office of Compliance, Diversity and Ethics; (3) allegations of violation of University or Commonwealth workplace policy, which are governed by the procedures published by Human Resources and Payroll; or (4) alleged violations of academic freedom related to reappointment, promotion or tenure, for which Section 2.8 applies.

[Note: this revision is proposed to take into account the new procedures for Human Resources investigation into allegations of faculty violation of Commonwealth or University workplace policy.]
Preface to the Handbook

The *George Mason University Faculty Handbook* defines and describes the conditions of full-time instructional, research, and clinical faculty employment; the structures and processes through which the faculty participates in institutional decision-making and governance; and the academic policies of the University as established by its Board of Visitors. As an institution of higher education of the Commonwealth of Virginia, George Mason University is governed by the Code of Virginia. Nothing in this Handbook shall be interpreted as creating any right or benefit not duly authorized by law, or which is contrary to any law, policy, rule or regulation of the Commonwealth of Virginia.

The provisions of the *Faculty Handbook*, as amended from time to time, are incorporated by reference in all full-time instructional, research, and clinical faculty employment contracts. These provisions are binding on the University and on individual faculty members. The *Faculty Handbook* governs the employment relationship of individual faculty members, and sets forth the rights, privileges, and responsibilities of faculty members and of the University. Faculty and academic administrators are expected to read the *Faculty Handbook* and to be familiar with its contents.

Except as noted below, revisions to the *Handbook* may be proposed by any of the parties who have participated in its adoption: the Board of Visitors; the Faculty Senate, acting on behalf of the General Faculty; and the central administration.

Proposals to revise the Handbook will be considered by the Faculty Handbook Revision Committee (a University Standing Committee composed of three faculty members elected by the Faculty Senate) which meets jointly with representatives from Human Resources and Payroll and the Provost’s office. The proposed revisions that are approved by that body will be presented to the Faculty Senate for approval.

[Rationale: This proposed revision corresponds to the way revisions have been prepared and presented to the BOV for the last several years.]

All revisions require the formal approval of the Board of Visitors. Each revision shall be incorporated, as of the effective date fixed by the Board, in all existing and future faculty employment contracts; however, no revision shall operate retroactively to change materially the substantive rights of any faculty member or the conditions of award of tenure for faculty members already granted tenure, or who have filed a written request with his or her Dean to be evaluated for the award of tenure. For example, the conditions of employment governed by the Handbook may be changed prospectively and criteria for tenure may be changed for faculty who have not been awarded tenure, but may not be changed for faculty already tenured. Where no effective date is fixed for a revision, it shall become effective on July 1st following its approval by the BOV.

When a policy or procedure described in this Handbook is subject to alternative interpretations, then the Provost and the Faculty Senate Executive Committee will be the designated body to resolve the disagreement.

As of the date of the adoption of this edition of the Handbook, all prior policies with respect to matters covered therein are superseded. With the exception of the bylaws governing the University’s Board of
Visitors, the provisions of this Handbook supersede all inconsistent bylaws, policies and procedures in effect at the time of its adoption by the Board of Visitors (including, if applicable, custom and usage) of any officer, person, body, or unit of the University, including but not limited to the President or other officer of the University and any college, school, academic department, academic school, or other faculty organization.

[Rationale: The small revisions above are consistent with other revisions that define and differentiate departments and schools as subdivisions of larger collegiate units in Chapter.]

[No further changes to this section.]

CHAPTER I. UNIVERSITY ORGANIZATION

1.1-1.2 No changes

1.3 Faculty Organization
The faculty conducts its work and participates in institutional governance at the University level, the college/school level, and the level of the local academic unit (defined in Section 1.3.6). The faculty is organized accordingly, to provide for the exercise of its responsibilities at all three levels, as described in Sections 1.3.1-1.3.6 below. Faculty who are assigned to the Provost’s office, and do not have a primary affiliation in a college/school (Section 1.3.6), participate in University level governance as members of the General Faculty (Section 1.3.1) and are considered to belong to an independent academic unit.

[Rationale: There are many faculty, such as those who teach in INTO, who do not have primary affiliation with a college/school. In order to insure that they are recognized to the extent possible as being covered by the Faculty Handbook and deserve to be represented in various roles within the University, this language is added. The Charter of the Faculty Senate uses the term collegiate “Independent Unit” which may be represented by a Faculty Senator. Pending amendments to the Charter will include “independent academic unit” in addition to “collegiate unit” as having representation in the Faculty Senate.]

In accordance with the best traditions of American universities, the faculty plays a primary role in two types of determinations: the University's academic offerings and faculty personnel actions. The faculty also plays a vital role in academic organization and institutional change.

1.3.1 The General Faculty
The General Faculty consists of all faculty who have full-time instructional, research, or clinical appointments at any George Mason University campus. The General Faculty participates in governance at the university level.
Meetings of the General Faculty are scheduled by the President of the University, who serves as presiding officer. If at least 10% of the voting membership petitions for a called meeting of the General Faculty, the President is obliged to schedule it within thirty days, or within ten days if the purpose of the call is to consider modification of the authority the General Faculty has granted the Faculty Senate; or reversal of specific decisions of the Senate; or amending the Senate charter. All members of the General Faculty have voting rights on matters that pertain to the General Faculty. All members of the University community may attend meetings of the General Faculty and participate in the debate of matters that come before it. The General Faculty may meet electronically, provided the technology used allows all members to hear each other simultaneously, seek recognition, vote, and exercise other rights.

Without relinquishing the generality of its powers, The General Faculty delegates by Charter to the Faculty Senate the responsibility for shared academic governance at the university level. Only those faculty who have instructional appointments – tenured, tenure-track, term, or adjunct – may be elected to the Faculty Senate.

[The remainder of this document (except for the last page) are proposed revisions to make the Faculty Handbook language regarding collegiate units and their subdivisions correspond to actual practice.]

1.3.3 Colleges and Schools

The colleges and schools of the University are communities of teaching, learning, research and scholarship, and service established by the faculty and administration and approved by the Board of Visitors. They house faculties and programs representing shared educational interests. Colleges and schools may be subdivided into academic departments. Colleges may be also subdivided into one or more academic schools.

[Rationale: Schools that are subdivisions of colleges are properly named here as “academic schools” to differentiate them from schools that are the functional equivalent of a college.]

As an organizational unit, the college/school meets four functional criteria: (i) it has a tenured and tenure-track faculty directly and specifically appointed to it or to its academic subdivisions by the Board of Visitors; (ii) its faculty establishes degree requirements; authorizes the conferral of degrees; proposes, reviews and approves courses and programs; actively participates in decisions concerning the creation, reorganization and dissolution of units within the college/school; and plays a key role in faculty personnel actions such as appointments, promotion, and granting tenure; (iii) it has an instructional budget that includes FTE funds for the payment of its faculty's salaries as well as funds for goods and services in support of its academic programs and other activities; and (iv) its chief administrative officer is a Dean who reports directly to the Provost.

The faculties of colleges/schools, together with their Deans, determine the processes and procedures of governance they will employ, consistent with the provisions of the Faculty Handbook. All colleges/schools, and if so sub-divided, each of their academic subdivisions, must act in accordance with
the best traditions of the academic profession and within the following guidelines, which prescribe that
they

a. operate in an open and democratic manner;
b. define their own voting membership;
c. adopt bylaws or standing rules that are published and made available to all members and that
undergo periodic review and that include procedures and define eligibility for faculty
participation in the activities specified in this Handbook;
d. meet often enough to ensure good communication and the timely conduct of business;
e. hold meetings that follow an agenda distributed in advance;
f. record the proceedings of the meetings in minutes that are distributed to and approved by the
faculty.

1.3.4 Academic Schools
[Note: Academic Institutes no longer exist. The new language is for academic schools that parallels
that of academic departments in the following Section 1.3.5. Although academic schools have
existed for a number of years, they have not been acknowledged in the Faculty Handbook.]

Colleges may be subdivided administratively into one or more academic schools. Academic schools may
be further subdivided into academic departments. The lowest unit subdivision within the college is the
local academic unit (LAU). Schools that are not subdivided are administered by a director. Schools that
are subdivided into departments are administered by a divisional dean.

Academic school faculties determine their own voting membership. Together with their administrators,
they determine the processes and procedures of governance they will employ, but all schools must
follow the guidelines applicable to colleges/schools set forth in Section 1.3.3.

1.3.5 Academic Departments
In colleges/schools or academic schools that are subdivided administratively into academic departments,
the department is the local unit of faculty organization. Each academic department is administered by a
chair.

Academic department faculties determine their own voting membership. Together with their chairs, they
determine the processes and procedures of governance they will employ, but all departments must
follow the guidelines applicable to colleges/schools set forth in Section 1.3.3.

1.3.6 Definition of Local Academic Units (LAU) and Primary Affiliation
The term "local academic unit" (LAU) refers to an academic department, an academic school without
subdivision, or to a college/school without subdivision. In this Handbook the chief administrative
officers of local academic units are generically called "local unit administrators" (LUA).

Although a faculty member's tenure resides in the University as a whole (see Section 2.1.1), in
recognition of disciplinary qualifications and for purposes of governance, tenure-track and tenured
faculty are appointed directly and specifically to one or more local academic units. Term faculty are also
appointed directly and specifically to one or more local academic units. The status established by such
an appointment to a local academic unit is called "primary affiliation." Primary affiliation in one local academic unit does not preclude the possibility of additional part-time or full-time assignments to other local academic units. An appointment to primary affiliation requires the concurrence of the faculty of the local academic unit to which the appointment is to be made and may not be transferred from one local academic unit to another except with the concurrence of the faculty of the unit to which a transfer is proposed.

The local level of governance is the most important in the University for the faculty's direct exercise of professional and peer judgment. Faculties of local academic units actively participate in decision-making about academic matters, matters of faculty status, and organizational and institutional change. They have primary responsibility for such academic matters as unit reorganization, the design of programs, development and alteration of the curriculum, standards for admission to programs, and requirements in the major. They play a primary role in such matters of faculty status as the recruitment and initial appointment of new faculty; the reappointment/renewal, promotion, and tenure, of members; and in the selection of the local unit administrator.

1.3.7 Colleges and Schools without Subdivision

Colleges and schools without subdivision, provide simultaneously for faculty governance at the collegiate level (as described in Section 1.3.3) and at the local level. In carrying out their function as local academic units, such colleges/schools will operate analogously to academic departments and academic schools (as described in Sections 1.3.4 and 1.3.5).

1.3.8 The Graduate Council

The Graduate Council, established by the General Faculty, oversees the conduct of graduate education. It establishes the general norms within which local academic units offer graduate degree programs; reviews and acts upon new graduate degree proposals; authorizes the conferral of graduate degrees; participates in the periodic evaluation of graduate programs and the periodic review of academic policy and admissions policies and procedures; and performs other functions as requested by the office of the Provost.

The Graduate Council establishes the specific means of conducting its own business. Like all local units, however, it must act within the guidelines set forth in Section 1.3.3.

1.3.9 Multidisciplinary or Interdisciplinary Programs

Most academic programs are offered by local academic units and are therefore administered and governed by the faculties of such units.

Some multidisciplinary or interdisciplinary programs are offered by faculties drawn from more than a single local academic unit. These faculty members do not hold primary affiliation in those programs but rather, in one or more local academic units (see Section 1.3.6). For purposes of personnel decisions regarding appointment, promotion and tenure, these faculty members are evaluated primarily by their peers in the local units of which they are a part, but with the requirement that recommendations from the multidisciplinary or interdisciplinary program faculty with which they are associated will be given due consideration.
Academic programs which are not internal to a single local academic unit are administered by a program director. This director is regarded as the equivalent of a department chair/school director and is therefore expected to possess equivalent academic credentials. Such program directors normally report to a Dean. If the program transcends the boundaries of a single college/school, normally the program director reports to the Provost.

Program faculty define their own voting membership. Together with their directors, they determine the procedures of governance they will employ, but all program faculties must act within the guidelines set forth in Section 1.3.3.

1.3.10 Centers

A center is a unit of the University intended to advance the University's mission of research and/or public service. Normally housed within a college/school or one of its subdivisions, a center does not develop or administer academic degree programs, nor does it possess instructional faculty appointed to primary affiliation with it. Centers may require the presence of research, clinical, and/or professional faculty whose affiliation with the center is subject to the availability of research funds. Faculty appointed to a center under externally funded grants or contracts may not receive tenure-track or tenured appointments through the center. A center is chartered for a specific period of time by a Dean or the Provost on the recommendation of appropriate faculty. Renewal of a center's charter, when called for, is subject to favorable review of a center's performance and accomplishments.

A center is administered by a director who serves at will and who is appointed by the local unit administrator of the unit within which the center is housed. Whenever possible, centers are expected to derive most of their operating budgets from a source or sources other than state appropriations.

2.11.2 Grievances

2.11.2.1 Policies Concerning Grievances

This section does not apply to the resolution of (1) research and scholarship misconduct allegations, which are governed by University Policy 4007 – Misconduct in Research and Scholarship; (2) allegations of discrimination, which are governed by procedures published by the Office of Compliance, Diversity and Ethics; (3) allegations of violation of University or Commonwealth workplace policy, which are governed by the procedures published by Human Resources and Payroll; or (4) alleged violations of academic freedom related to reappointment, promotion or tenure, for which Section 2.8 applies.

[Note: this revision is proposed to take into account the new procedures for Human Resources investigation into allegations of faculty violation of Commonwealth or University workplace policy.]
Updates and Announcements:

Presidential Awards for Faculty Excellence: Dr. Laurence Bray announced that there are 4 awards that are available. Faculty members are encouraged to review the website for nomination requirements and the deadline for submitting nominations.

Current Graduate Student Demographics Data: Dr. Bray is continuing to work on obtaining first-generation graduate student information. Updates will be provided as the information becomes available.

BAM Marketing: Dr. Bray and the Associate Deans are working with the Office of Communications and Marketing to create a marketing plan that advertises BAM programs to undergraduate Mason students and prospective undergraduate students.

SalesForce and TargetX: Updates and improvements are scheduled for the platforms, which will put a pause on all new program or application changes in the system from February 16th, 2021 till April 12th, 2021. If your unit anticipates getting SCHEV program approval during this time frame you are encouraged to email Ms. Brett (cbrett@gmu.edu) and Ms. Woodruff (swoodru3@gmu.edu) to discuss whether it is feasible to plan any needed updates ahead of time so they can be uploaded as soon as possible after April 12.

Workflow List of Graduate Faculty Application Initiators: Dr. Bray reminded units that their list of approved workflow initiators must to be sent to Ms. Kristin Amaya (kfairch1@gmu.edu).

Fall 2020 Alternative Grading: Dr. Bray announced Fall 2020 COVID-19 updates are available on the Graduate Education website and include graduate student information that the Registrar’s Office has also made available, including ongoing special considerations for international students. The Office of Graduate Education will also do this for Spring 2021.

Award Updates: Dr. Laurence Bray announced that the Office of Graduate Education has awarded 75 High Impact Grants and 21 Doctoral Research Scholarships.

Policies:

AP.6.7 Bachelor’s/Accelerated Master’s Degrees: Approved
AP.6.1.5 Institutional Credits (NEW): Approved
AP.6.4.4 Voluntary Resignation from Graduate Academic Program revision: Approved
AP.6.9.2: Approved

The report is based on the minutes circulated by Ms. Kristin Amaya. Respectfully Submitted by Cristiana Stan, Faculty Senate Representative to the Graduate Council 2020-2021

Grievance Committee (Submitted by John Farina, Chair – January 19, 2021)

There is no new or ongoing business for the Grievance Committee.
Intellectual Property Committee (Submitted by Tamara Maddox, Chair – Jan. 19, 2021)

The Intellectual Property Committee has not met over the break. However, we have assigned two subcommittees, one focusing on faculty matters (such as university use of faculty course recordings and asynchronous materials), and one focused on student matters (such as IP ownership of works with student contributions).

The first meeting of the faculty-focused subcommittee is scheduled for February 1, 2021. The first meeting of the student-focused subcommittee is scheduled for February 8, 2021. And our next regular full IP committee meeting is scheduled for February 17, 2021. (As newly elected Chair, I plan to attend all three meetings.) Thus, we should have be able to provide an update for the Faculty Senate as part of our March meeting.

Mason Academic Assessment Council (Submitted by Sheena Serslev – January 25, 2021)

Mason Academic Assessment Council – Pilot Peer Review of Academic Annual Assessment Reports

The Mason Academic Assessment Council (MAAC) has completed a pilot review of all academic programs that submitted a 2019-2020 academic assessment submission in Tk20. Each council member engaged in a small group/peer-driven process. Recognizing the disciplinary expertise of faculty, the reviews focused not on program content but on the assessment process itself and members engaged with the spirit of providing positive formative feedback. The Office of Institutional Effectiveness and Planning (OIEP) hosted sessions to frame the feedback process, clarify the role of the reviewer, and share themes from the feedback process. In an effort to acknowledge exemplary efforts and support continuous improvement, a feedback rubric will be shared with all programs in January/February 2021.

Mason Core Committee (Submitted by Melissa Broeckelman Post, co-chair – December 17, 2020)

Mason Core Committee Report

December 10 meeting

Courses approved for inclusion in the Mason Core:

• AVT 110: Digital Design Studio (IT)
• RELI 271: The Bible as Literature (LIT)
• SOCW 200: Introduction to Social Work (SBS)

At the request of the Organization and Operations Committee, we reviewed our charge and submitted suggested updates to the charge to O&O that better reflect the work of the Mason Core Committee.

Master Plan Steering Committee (Submitted by Shannon Davis, Zachary Schrag and David Wong, Faculty Senate representatives – January 25, 2021)

Report from Senate Members of the Master Plan Steering Committee

On December 8, 2020, the master plan staff hosted their fourth online town hall, at which the consultants presented the scenarios that we mentioned in our September 2020 report, which was included in the agenda for the September 30 meeting of the Faculty Senate. The December town hall was well attended and prompted thoughtful questions from those participating. The master
plan staff are working to post the slide deck and recording of that town hall in the Master Plan Document Library, https://construction.gmu.edu/university-master-plan/document-library.

The university staff and Dumont Janks team are preparing a Phase 1 draft report, which they plan to circulate for comment by members of the Steering Committee some time in February. They are also beginning work on Phase 2, designed to "focus on more detailed planning for the highest value scenarios."

Descriptions of the two phases can be found online as the Master Plan Timeline, https://construction.gmu.edu/university-master-plan/master-plan-timeline. That timeline originally envisioned Phase 1 to be complete by October 2020.

**Recreation Advisory Committee (Submitted by Esther Peters – January 27, 2021)**

The Recreation Advisory Committee last met on December 3. Although the Recreation Athletic Complex (RAC) and Aquatic & Fitness Center (AFC) had reduced hours or closed during Mason's winter break, with the start of spring semester more reservation times have been opened for use of the facilities and swimming pools. Graduate Assistant positions were advertised and filled in January. Cubbies are now available in the RAC and the locker rooms are open in the AFC for swimmers to use to change out of their wet swimsuits; however, the showers remain closed. Swimmers can enter the facility about 15 min before their time slot and use the locker rooms afterward, but they must exit the pool 20 min before the end of their time slot. All patrons must exit the facilities when their hour ends so that equipment can be cleaned and sanitized. Suggestions were made to add more benches and outdoor sports, as well as virtual programming, and to improve communication about the facilities through department listservs to faculty, staff, and students. Additional lifeguards will be needed. The next meeting of the Recreation Advisory Committee will be on February 2.

**Research Advisory Committee (Submitted by Lance Liotta, Chair)**

The Research Advisory Committee has been working with the Interim Vice President for Research, Innovation and Economic Impact on a number of topics. Specifically, there has been a focus on COVID-19 surveillance testing on campus. The committee will provide the Senate with an update on COVID-19 virus student and staff surveillance testing a) current saliva testing b) future post vaccine antibody testing: What the faculty needs to know. The committee will also discuss a proposal by Aurali Dade to consolidate the Faculty Senate Research Subcommittee with the Faculty Advisory Board for Policy Development ("The Advisory Board serves as a vehicle for faculty to provide guidance and input into policies related to research at George Mason University. The Vice President for Research appoints the Faculty Advisory Board for Policy Development").

**SACS-COC Reaffirmation Committee (Submitted by Shannon Davis, Faculty Senate Representative and Matt Smith, Director of Accreditation, Chair January 22, 2021)**

The members of the Reaffirmation Planning Group continue to serve faithfully their roles as a points of contact for needs related to the self-study portion of our SACSCOC reaffirmation of accreditation. Furthermore, the representatives of the colleges/schools continue to support this vital initiative by providing extensive input and documentation for the self-study report, which will be submitted to SACSCOC this summer.
During its November 2020 meeting, the University Naming Committee discussed the naming of 1) a pier be constructed at the Potomac Science Center and 2) a shuttle annex out-building at West Campus. Chair Paul Allvin, Vice President of Strategic Communications and Marketing, also briefed the committee about the President's anti-racism initiative and the role of the committee.

- **“Kelso Learning Pier”**: The College of Science requested an honorary naming of a pier be constructed at the Potomac Science Center after Dr. Don Kelso. All members were in favor.
- **“Shuttle Support Annex”**: Joy Staulcup, Associate Director Office of Space Management, presented the Shuttle Annex naming. The committee discussed the naming and suggested a change to Shuttle Support Annex to better describe its purpose. All members were in favor.
- **President's Anti-racism Initiative**: Chair Philip Stamper indicated that there are three tasks: 1) create an inventory of currently named buildings/locations to be evaluated to present a list of recommended changes; 2) review current naming procedures to improve honorary naming procedures and suggest considerations for future naming requirements to avoid repeating the evaluation process unless the circumstances were changed; and 3) develop a regular reviewing procedure to all named building (mainly applicable for changing circumstances of an active alive donor).

Following the meeting, the Executive Council approved both the Kelso Learning Pier and Shuttle Support Annex naming requests.
